# ABOUT US

What started as a humble idea soon evolved into an ambitious concept and led to establishing a unit to manufacture coolers at affordable prices for the masses. Inspired by the overwhelming response from the consumers, the company transformed itself from a mere manufacturing unit into a revolution with over 4 million sq ft area facility to look upon.

Our quest for excellence and grand vision to grow into a multi-product company led to our expansion. Attention to quality at affordable prices led to huge demand, and the emerging class of consumers fueled this increase. Today it's a name synonymous with trust and quality across the country.

HE IS A MAN OF VISION IN A TRUE SENSE. HE IS LIKE A FATHER FIGURE FOR THE ENTIRE TEAM.

He communicates through his actions instead of words. His core strength is he trusts his team. As his journey began from scratch, he is truly a gem of a person and a heart-centered professional. He started his business around 30 years ago with minimal working capital. He has marked a vertical growth in the industrial map of Ghaziabad, UP, and NCR. Currently, he has placed his group at a turnover of INR 1500 million (approx). He leads a professional team and a large number of workers through a system. He constantly teaches his team to always keep their eyes on the sky but their foot on the ground. He has a clear mission of transforming his organization into the world's largest & respected organization. His idea of fulfilling his mission is working in an environment that solely focuses on providing the products with zero defects and supreme quality to the consumers.

**Sanjeev Kumar Gupta | CMD**

HE IS A WONDERFUL LISTENER & IT IS WRITTEN IN THE PAGES OF HISTORY THAT ALL GREAT ACHIEVERS WERE GOOD LISTENERS.

He believes in staying grounded no matter how much you achieve. His core strength is he always aspires to understand others' concerns. Since he has also risen from the ground level and his elder brother (CMD), he is also a genuinely soulful professional interested in technical areas. He has a measurable role in marking the vertical growth of this organization in the industrial map of Ghaziabad, UP, NCR. He supports the CMD in leading a professional team and a large no of workers through a system. He constantly teaches his team that there is no substitute for hard work. He has a clear vision of supporting the CMD in achieving his mission of transforming his organization into the world's largest & most respected organization.
